

WE TOAST TO THE CRAFTSMEN OF A BYGONE ERA

The foundation of Stonecutters is built above a shallow ravine, containing the stone fragments meticulously chipped from the thousands of tons of Medina stone used to build Belhurst Castle.

Displayed in the hallway leading to the Castle are the framed blueprints used by craftsmen who constructed Belhurst in 1885. The hand cut grist wheel at the lobby entrance and the watering trough in our main lobby once stood at White Springs Manor.
